Dear member,

The environment committee has met several times since its formation last spring. We are pleased to inform you that members of the committee will soon be visiting your home to discuss with you the protection of our precious lake. They will give you documentation and can provide advice, if required.

You will find attached the results of the bacteriological monitoring of our lake, carried out by RAPPEL on August 3rd.

Best regards,

Anne Boissonneault
Environment Committee
